RECOVERY SPENDING IN 2009 VERSUS 2012

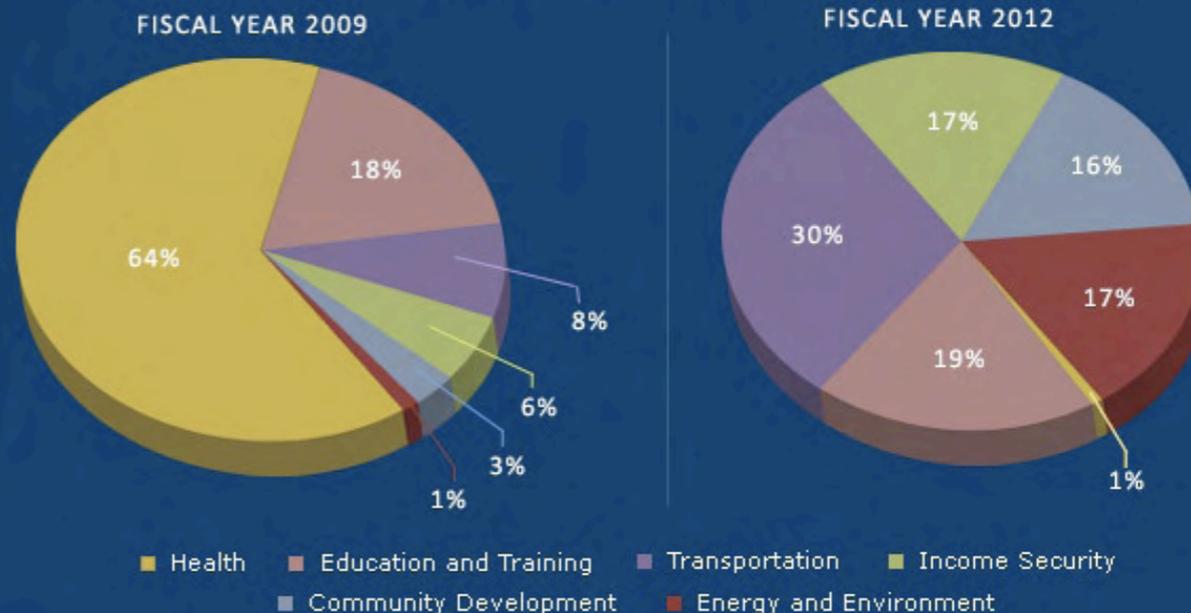

In Fiscal Year 2009, almost two-thirds of Recovery Act funding to states and localities will be in the health field; by FY 2012, the major portion of funding will shift to long-term economic growth opportunities in transportation, energy, and community development.

A practical use case

Recollection

The Library of Congress Digital Preservation

- 180+ Partners
- Located across the globe
- Groups have different charters, goals, budgets
- Many of these groups would benefit from sharing and connecting their data
- But it exists in many disconnected silos...

A Solution

- **Empower users** to create their own views of data to satisfy different job roles and changing needs
- **Build a community** around the data in which users help each other to curate and connect as needed
- **Skip the supermodel** - Leave data in the multiple “best of breed” systems; wrap and expose using the Web as a platform

Date: July 1, 2008 1:00:01 AM EDT
To: Eric Miller

This is a reminder, sent out once a month, about your purlz.org mailing list memberships. It includes your subscription info and how to use it to change it or unsubscribe from a list.

You can visit the URLs to change your membership status or configuration, including unsubscribing, setting digest-style delivery or disabling delivery altogether (e.g., for a vacation), and so on.

In addition to the URL interfaces, you can also use email to make such changes. For more info, send a message to the "-request" address of the list (for example, mailman-request@purlz.org) containing just the word "help" in the message body, and an email message will be sent to you with instructions.

If you have questions, problems, comments, etc, send them to mailman-owner@purlz.org. Thanks!

Recollection

- Software service allows rapid combination of private and public information, style it, share it
- A tool which makes collection easier to find, access and share
- An enabler of new insights into patterns and relationships inherent to data
- A framework that supports sharing of best practices; building a network of trust and participation around a common goal

Linked Data Communities

Enhancing access:

- Easy to expose collections via the Web

Connecting islands of information:

- Collections available from one access point
- Access and connect data across multiple collections

Creating and preserving the community:

- Share best practices across communities
- Establish a network of trust and participation

Open data opens new doors...

"It is not the strongest of the species that survives, or the most intelligent, but the one most responsive to change." -- Charles Darwin
